Richard Delaune Memorial

by *Mike Atkins*

THE 2nd RICHARD K DELAUNE, JR MEMORIAL was held over Father's Day weekend, June 16-18, in Springfield. Compared to last year's inaugural event, a few less players showed up but the memorial spirit was just as strong. New York GMs Joel Benjamin & John Fedorowicz came again to honor their friend; Alicia Delaune warmly greeted the players at the opening of the first round; and the Saturday afternoon reception for Rich's family and friends would have gone on even longer had it not run into the start of the 3rd round.

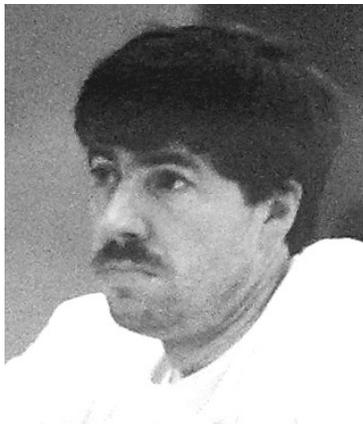

Last year's Open section finished in a 4-way tie. Even more people got in on the fun this time as we saw five players finish with 4-1 scores. Benjamin took 1st on tiebreaks (and most deservedly—he played head to head against three of his co-winners!), followed by IM Larry Kaufman (drew versus both grandmasters), and FMs Thomas Bartell, Dov Gorman & Boris Privman.

Fedorowicz flew in straight from a long week at a scholastic chess camp. With a ½-pt bye and draws versus Kaufman and 13-year-old Mark Heimann, he (along with FM Macon Shibut) finished just out of the money at 3½-1½. No less than seven players shared the U2300 prize with 3-2 scores: Andrew Samuelson, Ilye Figler, Rusty Potter, Steve Greanias, Shinsaku Uesugi and brothers Mark & Alexander Heimann.

William Marcelino was the only outright winner over the weekend. He took the U2200 section with 4 wins and a last round bye for 4½-½. Matt Grinberg & Chris Bush drew their tough last-round game to finish 4-1. Also scoring 4-1 was Joshua Lilly, who had perhaps the tournament of his life. Coming in at 1609, he turned in a 2121 performance to make his new rating 1748.

As if trying to mimic the Open section, four players tied for first with 4-1 apiece in the under 1600 group. Annapolis' Curtis Winter took 1st on tiebreak. 2nd and 3rd place trophies went to Glenn Shelton & Wil Acevedo, respectively. Pam Lee rounded out the winners' circle and took home the Class D prize. Under 1200 money went to Brian Higgins, who scored 3½.

Mike Atkins directed. The VCF and the Richard K Delaune Memorial Fund co-sponsored the event.

Richard O'Keefe

We regret to report the death of long-time GMU Chess Club organizer Richard O'Keefe. In addition to running countless tournaments and quads, he spearheaded a successful campaign to bring the 1976 US Open to Fairfax. He also edited *Ephor*, a long-running GMU club bulletin. ("Edited" seems too restrictive a verb; he basically wrote all the material.) He also contributed many colorful articles to *Virginia Chess* under the pen name "Felix Australius". (Felix means happy or fortunate in Latin; Australis is a kind of fish.)

In his May 20 *Washington Times* column, David Sands recalled that O'Keefe was "partial to romantic gambits and wild sacrifices, given to quoting Steinitz — *The king is a fighting piece!* — when his king found itself chased halfway across the board a dozen moves into the game." He will be warmly remembered and sorely missed.

Edmund Nash

We also have learned of the recent death of Edmund Nash, a long-time resident of Washington DC and a familiar face to northern Virginia players. Originally Adam Edmund Nasierawski, he was born in Montreal, Canada in 1909 and became a naturalized US citizen in 1936. His greatest celebrity in chess came from having beaten Bobby Fischer in a game at the 1956 US Amateur, the score of which survived to appear in all the Fischer anthologies. His last rated event in Virginia was the 1996 US Open in Alexandria.

A Championship Run for the Ages... Skill and Serendipity

REFLECTIONS OF A DC CHESS LEAGUE CAPTAIN ON THE 2005-2006 SEASON

By Milo Nekvasil

THE ARLINGTON KINGS are a longstanding representative of the Arlington Chess Club in the DC Chess League, but for the most part they have stood in the shadow of the more successful Arlington Rooks. The Kings have on occasion surprised stronger teams and taken the championship title with founding stalwarts Matt Grinberg and Don Connors. But it was the season of 1991-92 that the Kings last won such a championship.

In subsequent years, the Kings proved their mettle on occasion against stronger competition, but always succumbed at some point to either the powerful Coral Reef or the Arlington Rooks to finish as runners-up. This is not to say that the Reef or the Rooks did not respect the Kings, but it was either the Reef or the Rooks that would rise to the occasion.

That the 2005-06 season would prove any different was impossible to foresee. We had added no new players from the previous summer season and we were not even as deep as previously because George French took an extended sabbatical from chess to devote more time to family life. Regardless, I felt that with a core roster of 12 players, we would never be in desperate straits fielding a decent lineup.

In any case, going into the season we knew we would be up against the usual strong competition, plus two newcomers from the "A" section who had all the incentive to prove that they belonged in the Open section.

Round One: Kings vs Argyles [October 28, 2005]

While capable of putting out a strong lineup, the Arlington Argyles have never done well against the Kings. Much of this can be attributed, in my view, to the "mercenary" aspect of this team, where players are gathered on an *ad hoc* basis and there is very little "esprit." A successful team cannot be a mere collection of individuals but must include a chemistry that occasionally involves individual sacrifice in the cause of a larger good. More on this later!

Our match against the Argyles resulted in a dominating 4½-1½ win. We did use a new player in Bora Yagiz. Though he had a lower rating entering the season, for months Bora had expressed a desire to play for us, and I was happy to give him that opportunity. He acquitted himself well in this initial match as well as in the 2nd round.

It was at the end of the match and his fine win over Andrew Samuelson that Dov Gorman made the prescient observation that our team would accomplish something special this season. Little did I know that his prediction would come true—or that he would be unable to play any more matches for us during the season.

DOV GORMAN - ANDREW SAMUELSON

ENGLISH

Notes by Dov Gorman

[I sacrificed a pawn for the initiative. Black rejected and got an inferior position which led to a quick positional collapse.] **1 c4 c5 2 Nf3 g6 3 g3 Bg7 4 Bg2 Nc6 5 0-0 d6 6 Nc3 e5 7 d3 Nge7 8 a3 0-0 9 Rb1 a5 10 Bd2 Rb8 11 Nd5 Nxd5 12 cxd5 Ne7 13 b4 axb4 14 axb4 cxb4** [14...Nxd5 15 bxc5 dxc5 is interesting] **15 Qb3 Bf5 16 e4 Bg4 17 Bxb4 f5 18 Ng5 fxe4 19 dxe4 Qb6 20 Ba3 Qa6 21 Ra1 Be2** [21...Bf6 22 Ne6 Bxe6 23 dxe6 +-] **22 Rfe1 Bc4 23 Qb2 Rf6 24 Ne6 Nc8 25 Nc7 Qb6 26 Ne8 Rf8** [26...Qxb2 27 Nxf6+ Bxf6 28 Bxb2 Kf7 +-] **27 Qxb6 Nxb6 28 Nxg7 Kxg7 29 Bxd6 Nd7 30 Rec1 1-0** After 30...b5 31 Ra7 etc.

Round Two: Kings vs Passed Pawns [November 18, 2005]

At times during team play, one must be lucky and encounter a team when it lacks all of its heavy weapons. Harry Cohen is capable of fielding a very strong lineup, as he did in Round One and in later rounds, but sometimes it is impossible to gather all of one's best players on a given Friday night.

As it turned out, the Arlington Passed Pawns could not field their strongest lineup against us. I, on the other hand, was able to cajole a stronger turnout in anticipation of stiffer opposition. In particular, I was able to muster the potent father-son combination of Larry and Ray Kaufman, and this combination proved dynamic in a convincing 5½-½ win. Only yours truly spoiled a sweep, managing a draw in a poorly played game. Without making excuses, I find that being captain takes away from my actual game as I have to both concentrate on my position as well as calculate permutations of possible results on the other boards. It would be interesting to get the perspectives of other playing captains on this issue.

Two easy matches; little would the Kings know that the future would get a lot tougher.

Round Three: Kings vs Black Knights [December 8, 2005]

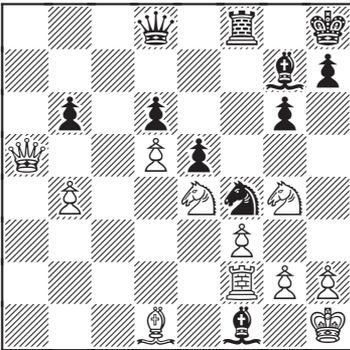

The Black Knights have not had any huge success in the League since its inception but they can never be underestimated and have always played the Kings tough. This season was no exception.

I deliberately did not play my strongest team, because I do not believe in “over-kill,” and, more importantly, I wanted to give a chance for our lower boards to play. Hence, I played up-and-coming youngster Steven Linett in this match—his first game ever in the Open section—and he came through for us with a crucial win in a 3½-2½ nail-biter.

KEITH MELBOURNE - STEVEN LINETT

KING'S INDIAN

1 d4 Nf6 2 Nf3 g6 3 c4 Bg7 4 Nc3 0-0 5 e4 d6 6 Be2 e5 7 d5 a5 8 0-0 Na6 9 Bd2 Nd7 10 a3 Nac5 11 b4 axb4 12 axb4 Rxa1 13 Qxa1 Nb3 14 Qa3 Nxd2 15 Nxd2 f5 16 Nb5 Nf6 17 f3 Nh5 18 Rf2 Bh6 19 Bd1 Nf4 20 c5 Qg5 21 Kh1 Qd8 22 Nc4 Bd7 23 Nc3 fxe4 24 Nxe4 Bb5 25 Ne3 Nd3 26 Re2 Kh8 27 Ng4 Nf4 28 Rc2 Bg7 29 Qa5 Bf1 30 Rf2 b6 31 cxb6 cxb6

At this point the game devolved into a time scramble and the players stopped keeping score. But Black wound up winning! 0-1

Round Four: Kings vs Berkeley Castles [January 20, 2006]

Our match with the neophyte Berkeley Castles turned out to be one of the toughest of the season. I again deliberately played only one of our top players, and it was Ray's perfect timing in adjourning a complicated game that guaranteed our victory in a 3½-2½ cliff-hanger. Don Connors and Douglas Stanley scored our two other wins; these two players would ultimately play crucial roles in the team's success with their strong individual performances.

An issue regarding the Castles that made me uncomfortable as a captain was Bora's request to play for both the Kings and the Castles. Obviously I could not use him in the match against the Castles because of a conflict of interest. I made a decision not to use him in subsequent matches because the idea of having a “mercenary” on my team denigrates the entire team concept.

Round Five: Kings vs Ankle Biters [February 3, 2006]

The Ankle Biters were another new team in the Open Section. Unlike the Berkeley Castles, who were formerly the "Coral Reef of the A Section," the Ankle Biters had never distinguished themselves even in the lower division, so I made a deliberate attempt not to play any masters in this match. As it turns out, however, my intended top board could not play at the last minute because of a family issue, so I had no recourse but to let a master step in. Ray Kaufman's game against James Guill turned out to be one of the most beautiful wins played all season.

Also, Sasho Dimtchev's draw this round turned the season around for him. His chess until that point had been both unlucky and uninspiring, but his hard-fought draw prepared him for successive rounds where he needed to be sharp.

*Long Live the Kings! Front row (L-R): Ken John, Larry Kaufman, Sasho Dimtchev, Milo Nekvasil;
Back row: Christian Vogler, Tim Rogalski, Don Connors, Doug Stanley, Steven Linett;
Not Pictured: Dov Gorman, Ray Kaufman & Bora Yagiz*

The Ankle Biters turned out to be no pushovers! Again we barely squeaked by with a 3½-2½ victory.

BILL CARROLL - MILO NEKVASIL

SICILIAN

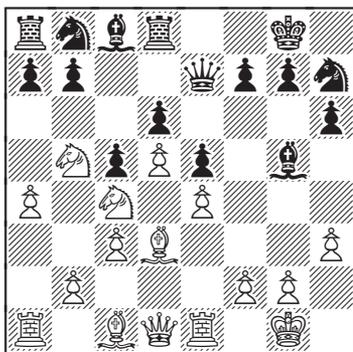

(Editor's Note: Lest the Captain be accused of excessive modesty in providing only a defeat as an example of his play, it's worth mentioning that Bill Carroll did proclaim this "the best game he'd ever played.") 1 e4 c5 2 c3 d6 3 d4 Nf6 4 Bd3 Nc6 5 Nf3

Round Six: Kings vs Arlington Rooks [March 3, 2006]

Entering Round Six, there were only three teams left with perfect scores: the Kings and the two perennial powerhouses, the Rooks and the Coral Reef. The last three rounds would determine who would be champion, and by the luck of the draw we had the Rooks scheduled this round, followed by the Coral Reef. If we were successful, we'd see one of those two again in the final Swiss round.

I was very happy when Walter Morris requested a seven-board match. He has a team of only seven players (more on this later) and all of them wanted to play in this crucial encounter. While top-heavy, the Rooks are far less potent on the lower boards, so I was only too happy to oblige!

Where Dov's presence would have created parity on the top boards, I felt going into the match that the Kaufman duo would battle Walter and Geoff McKenna to a draw, that we were definite underdogs on Boards 3 and 4, and that we were slight favorites on Boards 5-7.

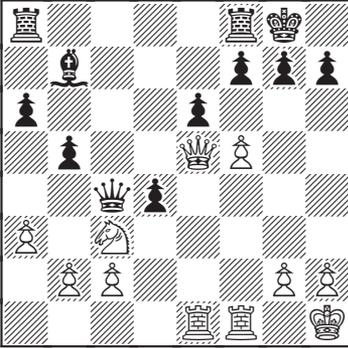

As it turned out, we split on the top two boards, with Walter taking the full point from Larry and Ray eking out a win over McKenna. What really won the match

for us was splitting the middle boards—Bill Mason beating our Ken John, while our Christian Vogler dominated Harold Mouzon thanks to some excellent pre-game preparation. As I had predicted, we won on two of the three bottom boards to earn a 4-3 victory.

DOUGLAS STANLEY - DOUGLAS ECKLEY
FRENCH

Bd5 27 bxc3 Rac8 28 Re3 Rc4 29 Rh3
Rg4+ 30 Kf2 Rg2+ 31 Ke3 1-0

Meanwhile, the Ankle Biters pulled off a stunning upset in holding the Coral Reef to a draw! So the Kings were now in the driver's seat, though tough matches lay yet ahead.

Round Seven: Kings vs Coral Reef [April 7, 2006]

Having fallen 1½ match points behind the Kings after their loss to the Rooks, the Reef apparently threw in the towel by fielding a team far weaker than usual. Even so, playing without Greg Acholonu or Stan Fink, they proved their mettle and their well-deserved acclaim as defending champions by playing us tough and only losing in a hard-fought battle 3½-2½. The match was not clinched until Christian won a very pretty adjourned game against Stephen Cheyney.

10 Grand Prix points

Round Eight: Kings vs Rooks [May 12, 2006]

Re-match with the Rooks! We stood comfortably going in, being one whole match point ahead. Even with a loss, we'd be in a playoff. *But we were tired of being in second place constantly, and wanted to experience the ultimate!*

A predicament arose during the week before the match. Due to personal scheduling difficulties, the Rooks might have only four players available. Walter never asked for a postponement, but ought I be a "good sportsman" and offer one? Or insist that the match be played on schedule?

What made me decide on the latter was reflecting on an incident from two weeks earlier. The Argyles had agreed to postpone their match with the Rooks at the Rooks' request. But the following week, when the rescheduled match was to be played, the Argyles' captain wound up begging around for players. He managed to field a team, but the Rooks had achieved an advantage by re-scheduling.

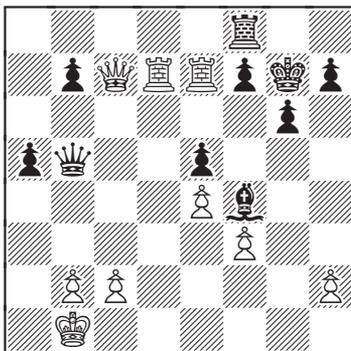

As for our match, we too were short a strong player: Ray had decided to seek chess adventure in Hungary for the summer. The Rooks, meanwhile, managed to find replacements rated only about 40 points lower than their regulars, so we were still out-rated on every board.

Regardless, the Kings played like true kings! We might easily have won on every board. In fact Tim Rogalski conceded a draw in a winning position and Ken John lost a winning position, but these were the only setbacks in a dominating 4½-1½ win.

Richmond High School Chess League

by Bill Barrow

Today, Saturday, April 29, 2006, the Greater Richmond High School Chess League playoffs were held at Deep Run High School in Henrico County. The Clover Hill High School Chess team defeated the Maggie Walker Governor's School chess team with a score of 3 to 1 and won first place in the Greater Richmond High School Chess League.

The Greater Richmond High School Chess League consists of 14 area high schools. Through out the school year they play two matches per month. Last Saturday the top four teams of each of two divisions played in the divisional play offs. Clover Hill High School won first place in their division With Midlothian coming in second. Maggie Walker Governor's School won first place in their division with Henrico coming in second. These four teams played in the final play offs today.

The competition at Deep Run High School lasted from 9:00 to 3:30 on Saturday, April 29, 2006. Clover Hill beat Henrico High in the first round, with Governor's School securing winning over Midlothian. In the second round, Clover Hill beat Governor's School for first place, and Midlothian secured a win over Henrico High for third place.

The players for the Clover Hill Chess team were junior Jack Barrow on first board, senior Zach Rimell on second board, sophomore Danny Messplay on third board and sophomore Erik Golden. Congratulations to them all.

Winning Clover Hill teammates (left to right): sophomore Danny Messplay, junior Jack Barrow, sophomore Erik Golden, senior Zach Rimell.

Kingstowne Chess Club News

by Don Millican

KINGSTOWNE QUAD #28 – BY GEORGE!

A total of sixteen players decided to play chess at the latest version of the Kingstowne Quads on April 1 in Alexandria instead of watching George Mason University's basketball team play Florida in the NCAA Final Four. However, as will be explained below, at least one section could have their cake and eat it too when it came to the Big Dance...

In the top Quad, Daniel Clancy won a silver medal with a score of $2\frac{1}{2}$. Alex Herrera took the bronze with 2. Michael Callinan & Jon Evans tied with 2 in the second Quad. Callinan won the silver medal on tiebreak, leaving the bronze for Evans. The third Quad was golden for Adam Renfro Chrisney with a perfect 3, leaving the bronze for William Wilson Jr with 2. The fourth Quad's players must have thought the time control of G/100 meant game in one hundred seconds! They finished *all three rounds* by 1:00 p.m., leaving plenty of time to get home for the big game! Stacey Bryden took the gold medal with 3 points while Sophie Gorman went home with the bronze by scoring 2.

Before the start of play, Kingstowne Chess Club recognized the most successful players of 2005: Mike Callinan for 1600 and above for the second consecutive year, and club President Rob McKinney for Under 1600. With his win today, Mike Callinan is on his way to a "three-peat."

KINGSTOWNE QUAD #29 - THESE MEDALS ARE MADE FOR WEARIN'...

Too bad Nancy Sinatra wasn't available to sing at the latest version of the Kingstowne Quads on May 6 in Alexandria. Most winners put their medals in their chess bags, purses or pockets and head out for home or perhaps to celebrate their success. A couple of past winners stuck their medals to the outside of their equipment bags. But one winner, who will remain unnamed, pinned his medal to his shirt on the way out. Does this mean the beginning of a new fashion accessory? At least one of the eighteen players in the twenty-ninth edition of the Quads thought so.

In the top Quad, Yang Dai won a silver medal with 2, just ahead of Kebadu Belachew & Stephen Jablon who tied for second with $1\frac{1}{2}$. Belechew won the bronze medal on tiebreak. The second Quad had Raymond Wang & Oluwaseyi Kayode tie for first with 2. Wang took the silver medal on tiebreak, leaving Kayode with the bronze. William H Wilson Jr was the clear winner in the third Quad with 3, good for a gold medal with Peter J Short's 2 points netting bronze.

The speed demons played in the bottom “Quad” (actually a six-player Swiss). Not as fast as last month’s tournament, but all games were finished by 2 pm. Maybe some of them wanted to see the Kentucky Derby; they had plenty of time to find a nearby TV set. When the dust settled (in the tournament not the horse race), Aravind Ponukumati scored gold with 3. Tying for second, Vishal Erabelli & Alex Xi Chen had 2 apiece, with Chen taking the silver medal on tiebreak and Erabelli the bronze.

KINGSTOWNE QUAD #30 – THREE GO FOR THREE

Fourteen players battled in the thirtieth version of the Kingstowne Quads, held June 3. The field broke down into of two Quad sections plus a six-player Swiss.

Daniel Arceo won a gold medal with a perfect 3 in the top Quad. Bronze went to Butch Arroyo with 2 for second place. Kerry Hubers won the second Quad and a gold medal with 3, while Peter Short finished second with 1½ and a bronze medal. And in the six player bottom “Quad,” William Wilson also won a gold medal with yet another 3-0 sweep. Byron O’Neal scored 2 to take the second place silver medal. Kelly Barr and Alex Chen both finished with 1½, with Barr taking third-place bronze medal on tiebreak.

The next Kingstowne Quad is July 8.

From a USCF Press Release:

Veterans’ Chess Outreach

GREAT GROWTH BUT NEEDS ADDED FUNDING

Now in its second year, the US Chess Federation’s Chess for Vets program has reached 146 Veteran hospitals in the United States, as well as providing chess sets, books, and supplies to active duty military personnel in Iraq, Afghanistan and Africa.

The New Jersey State Chess Federation has spearheaded the effort since its inception is. Their goal is to make the program available wherever veterans and active duty military personnel are stationed. Across the nation, burn and spinal injury veterans have been provided with computer stations to facilitate their active participation in chess. Braille chess sets have brought the challenging game even to blind veterans. Eight Veterans’ Hospitals have volunteer chess players who visit on a regular basis to teach and play chess with these American heroes.

Booster \$25 (2-day) or \$26 (3-day) postmarked by 8/10, \$10 more on site, RVCC member \$5 discount. No phone entries. Re-entry from 3-day to 2-day schedule \$25 (Open, Amateur), \$15 (Booster). Free parking, many restaurants nearby. NS, NC, W. Hotel \$60/night, 540-389-7061, reserve by 7/15 or rate may increase. *Enter*: Roanoke Valley CC, PO Box 1212, Salem, VA 24153. www.roanokechess.com. 540-521-4699.

15 Grand Prix points

Sets for Vets is financed entirely by contributions from the public, with every dollar donated going directly to purchase chess equipment. Initial funding provisions are, however, nearly spent. The program cannot continue to grow, even short term, without new infusions of cash.

Aetna Insurance, an initial corporate contributor, The NJ State Chess Federation along with USCF members across the country, raised \$13,750 in the program's first year. At least a like amount is needed in order just to keep those troops currently involved in the program adequately supplied. You may go to www.uschess.org/setsforvets.php for additional information. All donations, large and small will be appreciated.

GEOFF MCKENNA - ANDREW SAMUELSON

DC CHESS LEAGUE 2006

GRUENFELD

Notes by Geoff McKenna

1 d4 Nf6 2 c4 c5 3 e3 [Polugaevsky played this sometimes. I first saw 3 e3 as Black against Ove Kroll at the 1982 Virginia Open. Kroll, now largely forgotten in the Virginia chessplaying community, was one of our highest-rated competitors. Anyway, the game transposed into a Panov-Botvinnik attack and I lost in 16 moves. I again tried the Black side of the Panov-Botvinnik eleven years later on board one in the last round of the 1993 Virginia State Championship. That time I wasn't so lucky, losing in 13 moves to M Shibus.] 3...g6 4 Nf3 Bg7 5 Nc3 0 0 6 Be2 [Only now do we see the point of 3 e3. Black has two natural options here. One is to play 6...b6 and 7...Bb7. However, White can then play d5, when Black's two moves turn out to be a net loss. The other, better option is to play as in the game, but then White gets a reverse Tarrasch defense.] 6...cxd4 7 exd4 d5 8 0 0 Nc6 9 Bf4 [A decision point; the more natural 9 Bg5 runs afoul of 9...Ne4, which is fine for Black. White should probably play 9 Re1, which is more in keeping with the Tarrasch.] 9...Bg4 10 c5 [Bad in principle, but the alternatives likewise lacked appeal.] 10...Ne4 11 Re1 Rc8 12 Rc1 e6 [This can't be better than taking on f3 and d4] 13 Nb5 Qf6 14 Be3 [I had planned to play 14 Be5 but

14...Nxe5 15 dxe5 Qf4 looked awful.] 14...a6 15 Nc3 Qd8 [Maybe 15...h6 is better. Short of time, and emboldened by Black's retreat, I embarked on a mistimed adventure.] 16 Nxe4 dxe4 17 Ng5 Bxe2 18 Rxe2 Qd5! [Of course! Black is winning.] 19 Qb3 h6 [But here begins a long, slow downhill slide. 19...Nxd4 is probably better.] 20 Qxd5 exd5 21 Nh3 g5 [Again Black could have done better, eg, something like 21...Nxd4 22 Rd2 Nf5 23 Rxd5 Nxe3 24 fxe3 Bxb2 25 Rb1 Ba3] 22 Rd1 f5 23 f4 exf3 24 gxf3 Rfe8 25 Kf1 Re6?! 26 Ng1 Rce8 27 Bf2 [Doubling Rooks on the e-file was a big strategic lemon. All it did was commit Black to an undesirable exchange.] 27...Kf7 28 Rxe6 Rxe6 29 Ne2 h5 30 Nc3 Ne7 [an astonishing transformation in the respective role of the knights] 31 b4 g4 32 a4 Bh6 [Black can't take and hold f3 because of Rd1-d3xf3] 33 b5 axb5 34 axb5 Bf4 35 Kg2 gxf3+? [Yet another misjudgment; Black's pawn on g4 was his big positional trump but now all of his pawns are weak.] 36 Kxf3 Bxh2 37 Rh1 Bc7 38 Bh4?! [I should simply take on h5, optionally prefaced by b6] 38...Ba5! [Uh-oh. Time for a rethink. Fortunately White is able to avoid real damage.] 39 Ne2 Ng6 40 Bg5 h4 41 Bxh4 Bd2 42 Bf2 Re7 43 Rh5 [This was the most entertaining moment of the game for me as I envisaged 43...Rxe2 44 Kxe2 Nf4+ 45 Kxd2 Nxh5 46 c6 bxc6

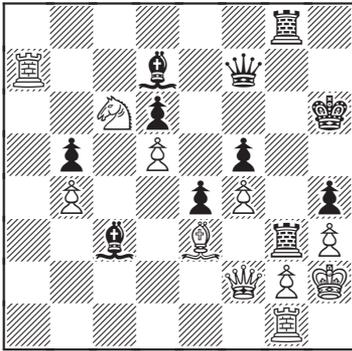

47 b6 Nf6 48 b7 Nd7 49 Bg3 winning. Regrettably, the opponent isn't obliged to make bad moves.] **43...Ke6 44 Bg3** [Trying to lure the f-pawn forward, eg, 44...f4 45 Bh4+ (but not 45 Bf4? Rf7+)] **44...Kf6 45 Bd6 Re3+** [Probably better than the passive ...Rf7] **46 Kf2 Rb3 47 b6 Be3+ 48 Kg2 Kg7** [Maybe 48...Rb2 49 Kf3 Rb3 was a better try.] **49 Rh3** [It's hard to find useful moves for either side so White tries a pin.] **49...f4?** [The weary swimmer finally goes under. But I don't know what Black is supposed to do here.] **50 Bxf4 Rb2 51 Rxe3** [The other way, 51 Bxe3 Rxe2+ 52 Kf3, seemed to allow Black to defend longer because White's bishop isn't very good.) **51...Nxf4+ 52 Kf3 Ng6 53 Nf4 Rb4 54 Nxg6 Kxg6 55 Re7** [55 Re8 Rxd4 56 c6 bxc6 57 b7 +- was also possible.] **55...Rxd4 56 Rxb7 Kf5 57 c6 Rd3+ 58 Ke2 Rc3 59 c7 1-0**

MACON SHIBUT - CESAR BLANCO
FOXWOODS 2006
SICILIAN

Notes by Macon Shibus

1 e4 c5 2 c3 d6 3 d4 Nf6 4 Bd3 Nc6 5 Nf3 g6 6 0-0 Bg7 7 d5 Nb8 8 h3 0-0 9 Bf4 a6 10 a4 e5 11 Bg5 h6 12 Be3 Ne8! 13 Nfd2 f5 14 exf5 gxf5 15 f4 [Now Black ought just to leave the pawn structure alone and occupy himself with the variety of useful moves at his disposal: Kh8, b6, R-a7-f7, Nd7, etc. I think chances would have been about equal.] **15...e4?** [Even though ...exf4 was bad for now, the *possibility* of playing it, perhaps in connection with

...Be5, was an option worth keeping. 15...e4 deprives his position of its dynamism. Now the most promising pawn breaks all belong to White, who can work for b4 in the near term and keep an eye out for g4 later once it doesn't endanger the king.] **16 Be2 Nd7 17 Nc4 Kh7 18 a5 b5 19 axb6 Nxb6 20 Nba3 Rg8 21 Nxb6 Qxb6 22 Nc4 Qc7 23 Kh2 Bb7 24 Bf2 Qf7 25 Ne3 Nc7 26 Bc4 Rab8 27 Qd2 Bc8 28 Ra2 Bf6** [I resolved that I simply was not going to play g3, period. Sooner or later the position blows apart and tactical weaknesses get exposed. I did not want my second rank laid open on the day Black's rook crashes into b2] **29 Rd1? Rg7 30 Bf1? Qg6 31 Be2** [*"On second thought..."* But time has been lost and now Black is pressing for the initiative.] **31...h5 32 Rg1 Qh6** [After much maneuvering, the attack on f4 finally initiates a calculating phase. *"Okay, let's see: I go 33 Nc4 and he goes... yikes! 33...Nxd5 34 Qxd5 Qxf4+..."*] **33 Nd1 33...Bb7 34 Bc4 Rbg8 35 b4 cxb4 36 cxb4 h4 37 Ra3 Be5 38 Be3 Bf6 39 Nc3!** [Δ N-e2-d4] **39...Rg3? 40 Ne2 R3g6 41 Nd4 Bc8 42 Ra2 Rg3 43 Rc2! Qg7 44 Nc6** [Black was threatening Rxe3 followed by Bxd4, and 44 Ne6? wouldn't do because of 44...Bxe6 45 dxe6 d5] **44...Nb5?** [My light-square bishop was blocking the c-file and butting its head against d5. I might have conceded something for a chance to trade it off but my opponent lets me do so for free.] **45 Bxb5 axb5 46 Ra2 Bc3 47 Qe2 Kh6 48 Ra7 Bd7 49 Qf2 Qf7**

Attacking my d-pawn, and with this move Black offered a draw. I sensed a certain reluctance, as if he liked his position but feared for his situation on the clock. Indeed, most of the hour we'd added after move 40 was already melted away. But if Blanco figured his annoying looking threat would incline me just to split the point and be done with it, it actually had the opposite effect as this was precisely what I'd hoped for. So I quickly replied with my planned... *blunder!*

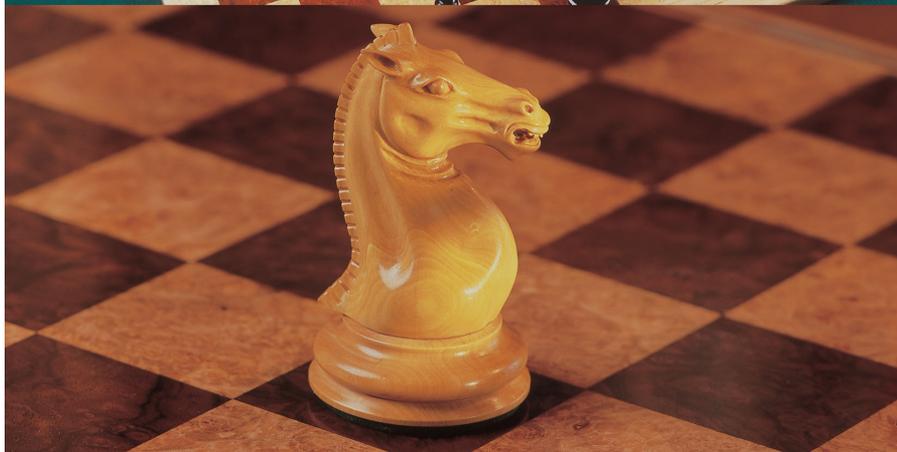

50 Bd4? [There are great complications, which was my intent, but 50 Ne5! would have been the correct way to do it. 50...dxe5 51 fxe5+ Kg6 52 e6 Qf6 53 Rxd7 and Black has a lot of candidate moves (Be5; Rxe3; Bxb4) but I could deal with them all and in general the position must favor White: safer king plus advanced, connected passed pawns! As for the text—well, I thought I'd worked out everything, including a couple of particularly nice points, so of course I had to go for it.] **50...Qxd5?** [Proving that the winner makes the *second to last* mistake. He chose the main line in my calculations

and from here on everything went as I'd hoped. But 50...Bxd4! could have turned the tables. If 51 Qxd4 Qg6! White's pieces aren't doing anything, whereas unblocking the e-pawn has energized Black's attack, eg, 52 Qf2 e3! is winning (53 Qe2 Rxh3+!; or 53 Qf1 e2! 54 Qxe2 Rxh3+!). A better defense is available in 52 Ra2, but Black is still better.]

51 Ne7! Bxd4 [Since 51...Qxd4 leads directly to a position where Black is a piece down—52 Nxg8+ Kg6 53 Qxd4 Bxd4 54 Rxd7 Bxg1+ 55 Kxg1—one understands that he'd go for something else. However, that position would still be a bit messy considering Black's protected passed pawn, the vulnerability of b4, and the fact that the knight is rather offside. My sense is White ought to win but funny things could still happen, so this was Black's best try.] **52 Nxg8+ Kg7** [52...Kg6 53 Ne7+ Kf7 (not 53...Kh5? 54 Qe2+) 54 Nx d5 Bxf2 55 Rxd7+ Ke6 56 Rf1 is a bit confusing but good for White, eg, 56...e3 (or 56...Bd4 57 Rh7 Kxd5 58 Rxh4 Rb3 59 Rh5 Ke6 60 g4 fxg4 61 f5+ and hxg3; or 56...Kxd7 57 Rxf2 gives White an improved version of the knight-up ending from the previous note) 57 Nxe3 Kxd7 58 Nxf5 winning.] **53 Rxd7+ Kxg8** [In my calculations at move 50 I'd planned 54 Rd1, which is winning, but sometime during the next couple turns I noticed an even more conclusive shot.] **54 Rc1!** [Threatens mate, against which there is little choice.] **54...Bc3 55 Rxc3! Rxc3 56 Qxh4** [Threatening either Qd8 or Qh7; Black is helpless.] **56...Rc8 57 Qh7+ Kf8 58 Qg7+ 1-0**
