# BYOD User Guide

Users with a BYOD device need to go through the enrollment process once a year, and this document details such a process. Once you are enrolled, you will be automatically connected to the wireless network next time you log in. This document does not apply to FCPS-managed devices.

1. BYOD MacOS/iOS

	Description	Screen Shot
1.	Go to the Wi-Fi settings on your device and connect to FCPSonboarding SSID. **If a popup shows on the screen to begin the enrollment process, please do not use that and close the popup.**	

| 2	Open Safari and type in wifienrollment.fcps.edu; click and agree to the "Terms and Conditions," and click "Start" on the lower right corner of the screen. ****THIS MUST BE DONE IN SAFARI****	
3	On the next screen, you have a choice to log in either as an FCPS Staff or Student, which requires a password, or as a Guest User, which does not require a password. If you choose "Guest Users," please go to step 5.	
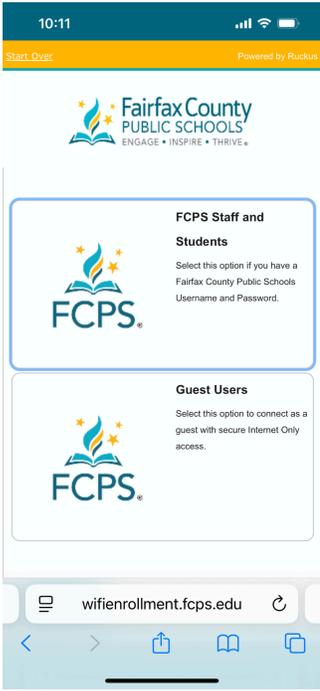

4	You will be prompted to enter the FCPS username and password. Please enter the FCPS network login credentials.	
5	Click "Allow" to download the configuration profile.	

6	Choose your device and/or operating system type.	
7	You will see the message once the profile is downloaded. Click "Close."	
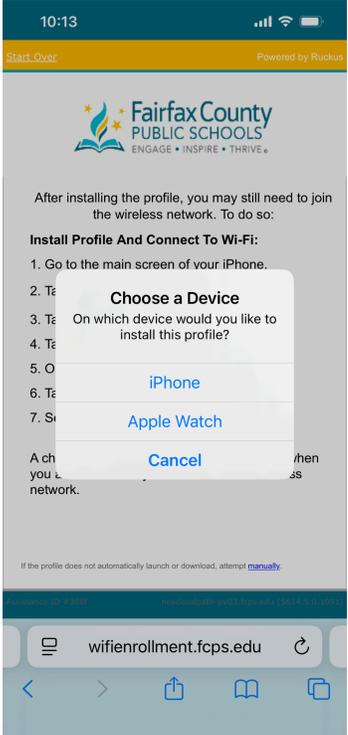

| 8	Go to the "VPN & Device Management" by either searching for it at the main screen, or by going to "Settings - General - VPN & Device Management."	
9	Double click on "BYOD" to begin the installation process. You will see a warning message regarding the profile installation. Click "Install" and follow any other prompts that popup. Click "Done" after the profile is installed.

2. BYOD Windows Device

	Description	Screen Shot
1	Go to FCPSonboarding, and click on "Connect." (Note: Do *not* click "Connect automatically.")	
2	An enrollment page will pop up in your default browser. Click "Start" on the lower right of the screen. (Note: If the enrollment page does not automatically pops up, click on "Open browser and connect") (Note: For Windows devices, Edge works better than Chrome and browsers.)	

3	You have a choice to log in either as an FCPS Staff or Student, which requires a password, or as a Guest User, which does not require a password. If you choose "Guest Users," please go to step 5.	
4	Enter your FCPS username and password, and click on "Continue." Please enter the FCPS network login credentials.	

5	You will be prompted to download an .exe file. Click on the first option to download. Note: There is a slight delay here. Wait for 10 seconds and a download bar will pop up on the upper right-hand side of the browser.	
6	On the upper right-hand side of the browser, a Microsoft Defender warning will appear. Click on the .••• and choose "Keep" to allow the download to go through.	
7	After the file is downloaded, click on the exe file to install.	
8	You will receive a Microsoft Defender warning. Click "Run."	

9	You might also receive a certificate security warning. Click "Yes" to continue the install.	
10	A Cloudpath installer will pop up. Once completed, two green checkmarks will appear and indicate successful installation. You are now connected to the FCPS network (via FCPSbyod network). You can close the installer window and resume the usage of your computer. Keep in mind that the enrollment process only needs to be performed once every school year.	

3. BYOD Android

	Description	Screen Shot
1.	Go to the Wi-Fi settings on your device and connect to FCPSonboarding SSID. Tap on the notification that appears "Sign in to Wi-Fi network"	
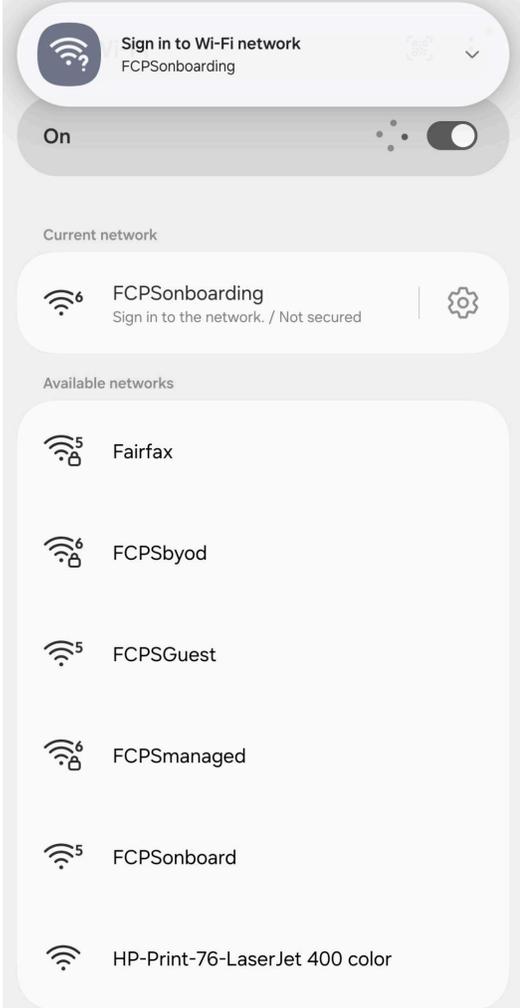

| 2. | Tap on the 3-dots menu in the upper right corner. | **Sign in to FCPSonboarding**   ⋮
